Prevent Crime
Before It Happens

01

COMPANY BACKGROUND

Established in 2020, VIMO TECH SDN BHD is a security solutions company specialising in **intelligent AI video surveillance systems** designed to complement the duties of professional security personnel. We are committed to providing society with **industry-leading security solutions to protect lives and property.**

In contrast to conventional CCTV surveillance that only provide evidence for investigation after a crime had already been committed, VIMO TECH intelligent AI video surveillance systems feature an **automatic early-warning anti-theft alarm** that uses advanced software algorithms and lens focusing technologies to **recognise and trigger alarms the moment an unauthorised entry is detected.**

In addition, VIMO TECH AI surveillance systems also feature **remote monitoring and video playback capabilities** as per the industry standard, providing **24-hour surveillance 365 days** a year for all-around protection to completely safeguard lives and property within the system's range.

Reliable, effective and completely game-changing, VIMO TECH intelligent AI surveillance systems have been met with universal acclaim from customers with a **99% renewal rate** for our product support services. VIMO TECH will be dedicating resources to ongoing product development and improvement, including technology updates and personnel training, as we work towards **developing a safer society** for all.

02

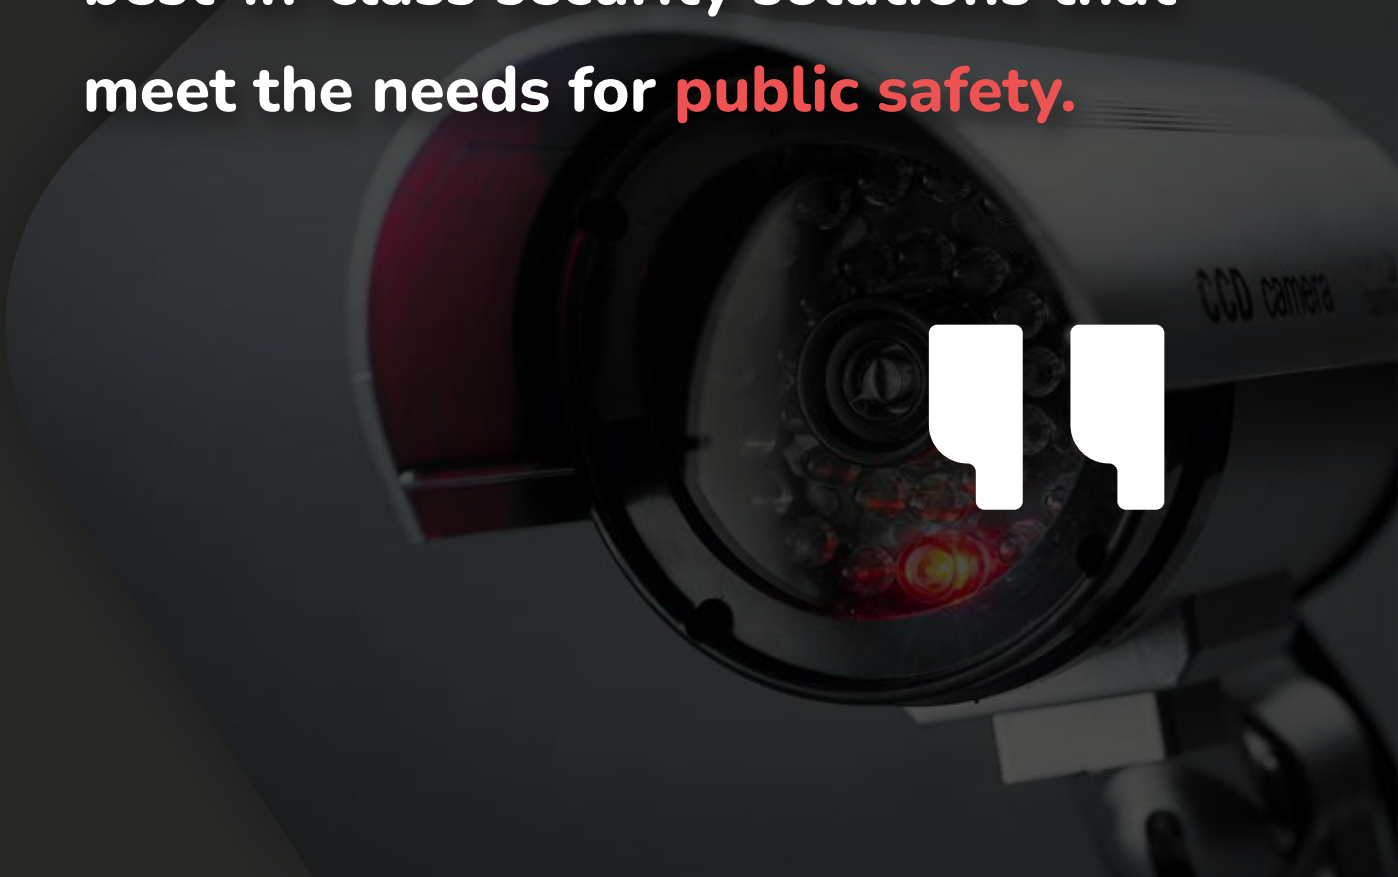

OUR
MISSION

To deliver uncompromising security solutions based on cutting-edge AI video surveillance technologies and lay the foundation for a high-trust society where crime is stopped before it can even begin.

03

OUR
VISION

Integrating **latest technologies** and **reliable service** to develop Malaysia's best-in-class security solutions that meet the needs for **public safety**.

04

CORE FEATURES
& SERVICES

Artificial Intelligence (AI) Surveillance Systems

Powered by the latest AI security algorithms and hardware, VIMO TECH surveillance systems provide real-time monitoring capable of **detecting motions, capture and analyse the intruder's face**, following which an **alert** is then sent to the user for further action - **stopping criminals before they can act.**

24-Hour, All-Year Protection

Reliable and unfailing, VIMO TECH real-time remote monitoring service is available 24 hours a day, 365 days a year, **manned by professional teams** to ensure that **rapid security action** can be taken at a moment's notice.

3rd-Party Manned Security

VIMO TECH's security team **monitor multiple cameras** simultaneously, ensuring full-fledged security protection **at a lower cost** compared to maintaining a dedicated internal team while **reducing their operational complexity**.

Emergency Backup

VIMO TECH systems contain an backup fail-safe that automatically copies all video data onto the **the cloud storage during emergency**, ensuring that **evidence is protected and always available** in assisting the police investigation and allow clients to recover any losses as soon as possible

Hardware Failure Notification

VIMO TECH system **automatically alert** in the event of **hardware failures** due to any reasons including intruder tampering and notify user for rapid repair of the hardware to **reduce the monitoring downtime** significantly.

05

WHY CHOOSE US

VIMO TECH SERVICE ADVANTAGE

★ Advanced AI Software

Advanced VIMO TECH AI systems provide distinct advantages over conventional CCTV surveillance, including **intelligent detection and tracking** of a wide range of suspicious behaviours while simultaneously capturing images and enhancing the intruder's facial features **to facilitate precise identification during investigations.**

★ Rapid Early Warning

VIMO TECH AI and early warning systems **enable security personnel and police to respond** as a crime or illegal entry is still in progress. In contrast, conventional CCTV only provides evidence for investigation after the crime.

05

WHY CHOOSE US

VIMO TECH SERVICE ADVANTAGE

★ Double Confirmation

The VIMO TECH AI surveillance system is manned by a dedicated security team that reviews warnings issued by the system to **verify the presence of an actual threat or a false alarm** and take action if necessary.

★ Designed For Public Safety

VIMO TECH AI Surveillance Systems are helping governments and other organisations improve **public safety and social stability** by preventing crimes before they can occur while assisting in **foot traffic control during emergencies** such as during an epidemic.

The logo for VIMO is displayed in a bold, white, sans-serif font. The letter 'i' is lowercase and features a small red square above it. The letter 'O' is uppercase and contains a white vertical bar in its center. The background consists of a dark grey field with two large, overlapping triangular shapes in a vibrant red color, one pointing towards the top right and the other towards the bottom left.
